This is a marvellous book that is divided into two books, one in Chinese and one in English. There is first a "*Brief Introduction to Early Chinese Airmails*," then 19 pages of "*The Forgeries of Chinese Airmails*," with numerous high quality colour illustrations on coated paper. This is all in Chinese. Then, there is a complete duplicate, including the illustrations, in English. The book ends with four pages, in English, of forerunners from David's Gold Medal collection.

This is a very small price to pay for such a quality handbook, even if the number of pages is small. Anyone at all interested in Chinese airmails should have this book.
